STATE CLEARINGHOUSE

NEWSLETTER

September 1-15, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1-15, 2005.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

2005091010	Valentine / Clinton Elementary School Project Central Unified School District Fresno--Fresno The project consists of the development and operation of an elementary school on a 14.3-acre site. The proposed elementary school will be a full-service facility designed to accommodate 860 grades K-6 students. The elementary school will have classrooms, faculty work areas, administrative offices, multi-purpose facilities, athletic/recreation areas, and parking lots. Portions of the school grounds will be lighted for security and recreational purposes and may be available for community use during non-school hours.	CON	09/16/2005
2004082058	Copper Mill Calaveras County --Calaveras Construction and operation of a mixed use urban development retail/ professional office/ residential uses.	EIR	10/17/2005
2005021083	Grand Terrace Educational Facility Colton Joint Unified School District Grand Terrace--San Bernardino Acquisition of the project site for the constuction and operation of High School 3 and adjunct educational facility (collectively, Grant Terrace Educational Facility). High School 3 would provide a 263,000 square foot, seven building comprehensive high school program for 3,000 students in grades nine through twelve. The site plan proposes approximately 1,300 parking spaces for project students, staff, and visitors. High School 3 would encompass the westernmost 55 acres, while the adjunct educational facility would be at the corner of Michigan Avenue and Main Street and would consist of approximately 45,000 square feet of space and approximately 100 parking stalls. It is assumed that at any given time during school operating hours, approximately 300 students and 85 staff members would be on this portion of the site. The project would require vacation of a portion of Pico Street and removal of Union Pacific Railroad spur tracks.	EIR	10/17/2005
2001122074	PlumpJack Squaw Valley Inn Placer County Planning Department --Placer Proposal to expand the existing PlumpJack Squaw Valley Inn by constructing a new building which will include 34 multi-family residential units, 28 lockout units, underground and street level parking, foyer/lobby area, exercise room and game room.	FIN	
2004071034	Twin Oaks Valley Water Treatment Plant San Diego County Water Authority --San Diego Design, construction and operation of a water treatment plant (conventional or membrane process) to treat up to 100 mgd of water.	FIN

2005091003	<p>Conditional Use Permit No. 15, Map No. 101-23 (Gary and Sheri Lasater by Brian Shockley) Kern County Planning Department Bakersfield--Kern</p> <p>A Conditional Use Permit to allow an indoor kennel facility in an A-1 (Limited Agriculture) District. The project site is a 2.05-acre parcel developed with an existing 4,800-square foot metal building and eight parking spaces. The request is to allow the conversion of the existing building and eight parking spaces. The request is to allow the conversion of the existing building into a climate controlled, indoor kennel facility with incidental grooming and training services. As proposed, conversion would entail the installation of interior walls, addition of the parking spaces and the construction of block walls and screening fencing around the perimeter of the development. The facility would have a capacity for 31 canines and 25 felines, with provisions for accommodating birds and reptiles. Felines would be housed in large cat enclosures, while canines would be housed in individual enclosures. No animals would be boarded outdoors.</p>	MND	09/30/2005
2005091007	<p>Tentative Tract Map No. 31593 / Mitigated Negative Declaration MND No. 2005-08 Lake Elsinore, City of Lake Elsinore--Riverside</p> <p>The proposed project proposes to develop approximately 94 acres of land into 521 single-family residential lots with a minimum lot size of 6,000 square feet and a maximum lot size of 10,000 square feet. The proposed project will include approximately 94 acres of open space consisting of open lots, landscaped slopes and a detention basin along the southeast boundary, adjacent to Elsinore Hills Drive. The proposed project proposes to expand Elsinore Hills Drive to the north and build a road crossing over Wasson Creek using a 30-foot wide arch structure. An additional 11 acres will be conserved in the Multiple Species Habitat Conservation Plan.</p> <p>Implementation of the proposed project will result in the development of approximately 521 residential units. The residential development is clustered to the north and south of a series of prominent peaks which run through the center of the property. Approximately 61.3 acres containing the major ridgeline are thus preserved in their natural state.</p>	MND	09/30/2005
2005092004	<p>Pine Mountain Lake Airport Master Plan Tuolumne County Community Development Dept. --Tuolumne</p> <p>The proposed project is to make multiple improvements to the Pine Mountain Lake Airport. The Master Plan is developed according to a demand-based schedule. The intention of the Master Plan is to identify and plan for the improvements needed to serve new levels of demand when the levels of demand experienced at the airport justify their implementation. The Master Plan describes various activity levels for short, intermediate, and long term planning horizons to justify the improvements.</p>	MND	09/30/2005
2005041031	<p>1837 1/2 El Camino de la Luz Santa Barbara, City of Santa Barbara--Santa Barbara</p> <p>The project consists of the construction of a 1,499 sf 2-story single family residence with an attached 443 sf garage, on a 23,885 sf vacant bluff-top lot. Access to the site would be provided by private easements extending south from the end of the paved public road (El Camino de la Luz).</p>	NOP	09/30/2005

2005082136	Classics at Evandale Mountain View, City of Mountain View--Santa Clara Demolition of existing motel and construction of 35-40 residential units on 2.2 acres.	NOP	09/30/2005
2005091001	Valley Trails Specific Plan 04-004 Fontana, City of Fontana--San Bernardino An approximately 300-acre Specific Plan which will include a public elementary school, park site, private recreation center and approximately 1,200 residential units.	NOP	09/30/2005
2005091004	Tabata TPM; TPM 20729RPL, Log No. 03-02-010 San Diego County Department of Planning and Land Use --San Diego The application proposes a minor subdivision of 33.03 acres (gross) into three parcels ranging in size from 9.28 to 12.37 to acres (net).	NOP	09/30/2005
2005091013	Garey 9th Grade School an Garey Village Annex Adult Education Center Pomona Unified School District Pomona--Los Angeles The Pomona Unified School District (District) proposes construction and operation of Garey 9th Grade School and interior renovation of an existing building for the operation of the Garey Village Annex Adult Education Center. The project would include approximately 500 parking spaces. The proposed 78,000 square foot Garey 9th Grade School would provide a maximum of 1,000 two-semester seats for 9th grade only. Current plans are to operate the school on a traditional calendar year. Anticipated staff is 62 full-time teachers and staff. The proposed Garey Village Annex Adult Education Center consists of interior structural improvements to the existing 40,000 square foot Garey Square retail building (2255 S. Garey Avenue; former Pomona Bowl bowling alley) for conversion to an adult classroom building. The number of students would vary, depending on the time of day, between 160 and 359 for day classes (8:00 am to 4:30 pm) and 78 and 255 for night classes (5:00 pm to 10:00 pm). The Adult Education Center would include approximately 20 full-time teachers and staff for day classes and 16 for night classes.	NOP	09/30/2005
2005091016	Kern High School District Comprehensive High School #1 Kern Union High School District Bakersfield--Kern This establishment and operation of a 2,079 to 2,261 student high school on a 63 acre project site. The site will also include a sports stadium, several athletic fields, and an outdoor amphitheater.	NOP	09/30/2005

2005091009	Fortuna Ranch Road Pipeline (Main Pipeline 24) Replacement Project Olivenhain Municipal Water District Encinitas--San Diego The Fortuna Ranch Road Pipeline Replacement Project was one of the projects approved for construction in the Program EIR for the 2004 Comprehensive Master Plan. A segment of the Fortuna Ranch Pipeline, located between the Extension 145 Pressure Reducing Station (PRS) (near Adams Run Road) and the Main 24-inch PRS, has a past history of failures and is reaching the end of its serviceable life. Thus, the purpose of this project is to replace this aging segment. Given the development of rural residential home sites along Fortuna Ranch Road since construction of the pipeline over 40 years ago, one objective of the pipeline replacement process is to relocate the existing pipeline and PRS away from overlying residential development.	Neg	09/30/2005
2005091011	Project No. 480 - Rancho Vista Boulevard / Avenue P Street Widening Project Report Palmdale, City of Palmdale--Los Angeles The project proposes to widen Rancho Vista Boulevard / Avenue P from four to six lanes from Fairway Drive to 15th Street East, and then transition the added lane back to the existing two lanes approximately 300 feet west of 20th Street East. Further widening is required on Rancho Vista Boulevard / Avenue P at several of the approaches to local arterial street intersections to accommodate left and right turn lanes. Also, along with the roadway widening will be the construction of a Class 1 bike lane from Sierra Highway to 15th Street. Finally, several arterials are	Neg	09/30/2005

2005092006	Zoning Amendment (2005-55 Delap) Calaveras County Planning Department --Calaveras Application #2005-55 for a Zoning Amendment has been submitted by Lonnie E. Delap to change the zoning designation from Recreation (REC) to Rural Commercial (RC) for a portion of a 5.02 +/- acre parcel, located at 20693 Highway 26 in Glencoe, California. The remaining portion of the subject parcel is already zoned RC. The subject property, as currently zoned, only allows location-specific recreation activities or support services for destination recreational resources located in the immediate area. Once the proposed zoning is in place, the property can be developed for commercial uses compatible with small towns, community centers, and isolated areas, as specified in Calaveras County Code §17.30. These include retail uses; service businesses; administrative and professional offices; public assembly, meeting, and accommodations; processing and assembly uses, including electronic component assembly; and accepted farming practices. Single family and duplex residential development is also permitted. More intensive uses related to these same types of businesses may also be allowed as a conditional use, with approval of the Calaveras County Planning Commission and appropriate environmental review.	Neg	09/30/2005
2005092007	App No 05-179 - Prospect / N. Campus (a.k.a. 2005094001	Blythe-Headgate Rock 161-kV Transmission Line Structure Replacement U.S. Department of Energy Blythe--Riverside, San Bernardino The U.S. Department of Energy (DOE) Western Area Power Administration (Western) proposes to replace approximately 52 miles of existing wood H-frame and specialized wood pole structures associated with the Parker-Blythe No. 1 161-kV Transmission Line from Headgate Rock Dam near Parker, Arizona to the Blythe Substation in Blythe, California. For this replacement portion of the Parker-Blythe No. 1 161-kV Transmission Line, referred to here as the Blythe-Headgate Rock 161-kV Transmission Line, a segment will be rerouted around the culturally sensitive area known as Black Point Mesa. This reroute would affect less than one mile of the project alignment.	EA	09/19/2005
2002121122	Santa Monica Downtown Parking Program Santa Monica, City of Santa Monica--Los Angeles The proposed project would involve: 1) seismic retrofitting of Parking Structure No. 2 at 1235 2nd Street and No. 4 at 1321 2nd Street; 2) demolition and reconstruction of Parking Structure No. 1 at 1234 4th Street, No. 3 at 1320 4th Street, and No. 6 at 1431 2nd Street; and 3) construction of two new structures, located generally in the area bounded by 4th Court and 6th Court between Wilshire Blvd. and Colorado Avenue. The Program would result in an increase of 1,712 parking spaces and up to approximately 59,340 square feet of ground floor commercial space.	EIR	10/17/2005

2003122131	San Francisco Marina Renovation San Francisco Planning Department San Francisco--San Francisco The San Francisco Marina Renovation Project (the project) consists of renovations to selected marina facilities to both the East and West Harbors of the San Francisco Marina. The project includes waterside improvements over the entire 39-acre waterside portion of the marinas and on 12 of the total 19 landside acres, as well as renovations of the 700 square foot former U.S. Navy Degaussing Station for use as a new Harbor Office. The project does not include any improvements to the St. Francis or Golden Gate Yacht Clubs, the lighthouse, the Marina Green, or the SFPUC pump station, and Recreation and Park Department use of the SFPUC facility would end.	EIR	10/17/2005
2003122137	Western Placerville Interchanges Project Placerville, City of Placerville--El Dorado The City of Placerville is proposing to widen and improve segments of Forni Road, Fair Lane, Placerville Drive, and Ray Lawyer Drive. Improvements to these roadways would be made in conjunction with modifications and improvements to eastbound and westbound Highway 50 (US 50) ramps to and from Forni Road, Placerville Drive, and Ray Lawyer Drive.	EIR	10/20/2005
2005061063	Yorba Linda Town Center EIR Yorba Linda, City of Yorba Linda--Orange The project proposes to implement the PD Zoning Regulations within the 130-acre Yorba Linda Town Center. In Addition, conceptual plan approval of a pedestrian bridge across Imperial Highway and the relocation of Orange County Fire Authority Station No. 10.	EIR	10/17/2005
2004052075	Milk Farm Dixon, City of Dixon--Solano The proposed project is the annexation and pre-zoning of the 60-acre Milk Farm property, located along the northwest side of I-80 at the Currey Road interchange northwest of I-80. The project also includes a General Plan Amendment and Sphere of Influence amendment. Thirty five acres of the 60-acre site would be designated for highway commercial use and 25 acres would be designated for agricultural use. No specific development plans have been submitted at this time.	FIN	
2004101105	Santa Ana College Facilities Master Plan Rancho Santiago Community College District Santa Ana--Orange The Rancho Santiago Community College District proposes to adopt a Facilities Master Plan (FMP) for Santa Ana College. Implementation of the FMP will include demolition of buildings, renovation/modernization of several structures, the construction of new structures and sports fields, and increased parking capacity through the provision of additional parking lots and a parking structure. Overall, the plan focuses on facilities that support campus activities and proposes construction of approximately 136,000 additional assignable square feet of building space on the campus for a total of approximately 534,000 a.s.f. on site. NOE	
2005098026	Memory Garden Lighting Project Parks and Recreation, Department of --Monterey Install new pathway, overhead, and task lighting along with electrical receptacles throughout the Memory Garden at Monterey State Historic Park. The Garden is located to the rear of the Pacific House, and is used for special events. This project will make the Garden safer for nighttime use, as existing lighting is inadequate. There will be four different types of light fixtures installed: 1) pathway, 2) wallwash, 3) tree/shrub uplight, and 4) string globe lights. GFI Duplex receptacles will be installed for convenience in several new locations. All ground disturbance will be a maximum of 24" deep, trench width will be 6"-8", and most areas have been disturbed by a previous project to install irrigation in 2003. There will be archaeological testing done prior to any trenching, with monitoring during the project. Any trenching done in the vicinity of trees will be done by hand. Conduits will be located in gravel areas adjacent to the planters with branches extending to the planters for each light fixture, junction box, etc. Project supports continued use and maintenance and public safety.	NOE

2000011075	Lower Owens River Project Los Angeles, City of --Inyo Restoration of the Lower Owens River by providing flows to the river to enhance fish, wetland, and riparian habitats, creating new wetlands through seasonal flooding at the Blackrock Waterfowl Habitat Area, releasing flows to the Delta Habitat Area to maintain and enhance wetlands, and modifying grazing practices on LADWP leases adjacent to the river.	NOP	10/05/2005
2005091041	Grand Avenue Project Los Angeles Grand Avenue Authority Los Angeles, City of--Los Angeles The proposed project includes the creation of a revitalized Civic Park within the 16-acre Los Angeles County Civic Mall; streetscape improvements along Grand Avenue between Fifth Street and Cesar Chavez Avenue to attract and accommodate more pedestrian traffic; and development of five parcels. Projected land uses on the five parcels consist of a combination of residential, retail, office and hotel uses.	NOP	10/05/2005
2005091044	Sprinkler Irrigation Water Conservation Incentive Program Los Angeles, City of Bishop--Inyo LADWP proposes to implement a water conservation program to promote irrigation efficiency on LADWP lands in Inyo County that are leased as pastures for livestock grazing and alfalfa fields and are irrigated using sprinklers. The program, on a voluntary basis, would allow lessees to receive a financial credit for reducing water use by increasing sprinkler irrigation efficiency. The financial credit would be 5 percent of the rent payment for the land leased with each 0.1 acre-foot per acre (AF/acre) of water conserved below the current allotment of 5 AF/acre. The maximum credit a lessee would be allowed to receive is 75 percent of the total rent, corresponding to 1.5 AF/acre of water conserved. LADWP would provide guidance and assistance for increasing sprinkler irrigation efficiency through non-structural improvements. The program would be implemented by including new provisions in the lease agreement at the time of renewal or in a separate water conservation agreement to be signed by LADWP and the lessee.	NOP	10/05/2005
2005092019	Water Treatment and Transmission Improvements Program East Bay Municipal Utility District Orinda, Moraga, Lafayette, Walnut Creek, Pleasant Hill, ...--Contra Costa, Alameda The purpose of the Water Treatment and Transmission Improvement Program (WTTIP) is to address water treatment, transmission and distribution system needs in Lafayette, Moraga, Orinda, and western Walnut Creek through 2030. The project objectives include EBMUD's goals for water quality, changing regulations, existing and future water demands, environmental responsibility, long-term reliability, and cost-effectiveness.	NOP	10/05/2005
2005092020	Montgomery High School Field Lighting Project Santa Rosa City Schools Santa Rosa--Sonoma The project would add four 80-foot poles with 18 lights each to the existing football and track field. The four poles would be installed symmetrically 165 feet apart and 65 feet from the track. Construction would be completed over a three to four week period. The lights are scheduled to be in place by the end of August 2006.	NOP	10/05/2005

2005092021	San Pablo Dam Seismic Upgrade East Bay Municipal Utility District --Contra Costa EBMUD completed a study of the San Pablo Dam in coordination with the California Division of Safety of Dams in 2004. The study determined that the hydraulic fill material in the embankment and the alluvium foundation underlying the embankment are susceptible to liquefaction. The study showed that the dam would slump and could decrease in height by as much as 35 feet in a magnitude 7.25 earthquake on the Hayward Fault, allowing water to flow over the top, resulting in downstream flooding. The San Pablo Dam Seismic Upgrade would improve the dam such that it would meet seismic safety requirements by improving foundation materials in place and adding a downstream buttress.	NOP	10/05/2005
2005092025	Branciforte Creek Residential Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of a Planned Development, Tentative Subdivision Map, and Design Permit application for creation of 44 lots and development of 37 residential units. Six lots will be sold, but no development plans are included in this proposal for these six lots (Lots 38-43). Access to the project site will be provided via new roadway that will cross the site and provide access off of Market Street and off Isabel Drive.	NOP	10/05/2005
2005092026	Water System Improvement Program San Francisco Planning Department --Tuolumne, Stanislaus, San Joaquin, Alameda, Santa Clara, ... The San Francisco Public Utilities Commission (SFPUC) proposes to adopt and implement the Water System Improvement Program (WSIP) to increase the reliability of the regional water system, which provides drinking water to 2.4 million people in San Francisco, San Mateo, Santa Clara, Alameda, and Tuolumne Counties. The WSIP is a program to implement the service goals and system performance objectives established by the SFPUC for the regional water system in the areas of water quality, seismic reliability, delivery reliability, and water supply through the year 2030.	NOP	10/24/2005
2005092028	ConocoPhillips Rodeo Clean Fuels Expansion Project Contra Costa County --Contra Costa The ConocoPhillips (Rodeo) Refinery is proposing a project to add new facilities and modify existing facilities to produce additional clean fuels from heavy gas oil produced by the refinery and sold into the heavy gas oil and fuel markets. These improvements and additions to the refinery will provide a number of economic and environmental benefits, including (1) allow for increased production of clean gasoline and diesel fuel (2) eliminate the highest volume hazardous waste stream at the refinery, and (3) upgrade equipment for improved efficiency and reliability.	NOP	10/05/2005

	and two seasonal ponds. Coopers Creek will be avoided, enhanced, and conserved. Project impacts of 2.80 acres of jurisdictional areas are authorized under this agreement.		
2002052067	Petition to Enlarge Appropriated Place of Use for Browns Valley Irrigation District Browns Valley Irrigation District --Yuba The Browns Valley Irrigation District (BVID) currently irrigates a gross area of 50,650 acres within its District boundaries with water diverted under a combination of pre- 1914 appropriative water right permits (Permit Nos. 8649, 9703, and 16792). The BVID has requested the State Water Resources Control Board (Board) to issue licenses for these three permits. The proposed project consists of modifying the terms of, and licensing, this previously permitted water storage and delivery system infrastructure.	NOD	
2004031016	Means TPM San Diego County Department of Planning and Land Use --San Diego The project proposes to subdivide the existing 38.07 acre parcel into 3 parcels ranging in size from 11.41 acres to 13.52 acres for estate residential development. There will be no off-site improvements required with the subdivision. The project is subject to the Regional Land Use Element Policy 1.3 Estate Development Area and General Plan Land Use Designation (20) General Agriculture. The parcels will be served by an on-site sewer system. Access to the parcel is off Salida del Sol.	NOD	
2004041089	Conditional Use Permit No. 02-236 Gorman Water Extraction Project Los Angeles County Department of Regional Planning Gorman--Los Angeles A Conditional Use Permit to authorize the storage and export of spring water, including the construction and maintenance of three water tank farms, tow loading stations and associated spring water delivery pipes in the A-2-5 zone. An existing residence would be used for a caretaker	NOD	
2004081142	Long Beach Memorial Medical Center Expansion Long Beach, City of Long Beach--Los Angeles The RAW addresses the removal and off-site disposal of approximately 28,500 cubic yards (cy) of contaminated soil and provides systems to prevent methane from entering the proposed new buildings. During the environmental investigation of the site, contaminated soils, methane gas, and solid waste debris were found in the subsurface soil in the area proposed for building construction.	NOD	
2004081170	Mills Ranch Specific Plan King City King City--Monterey Project applications include a General Plan Amendment, Specific Plan Vesting Tentative Tract Map, and Design Manual. The proposed 92.37-acre project includes 400 residential units and a small commercial area on approximately 47 acres, 7.5 acres of parklands, 1.1 acres of open space, approximately 9 acres of agricultural and railroad buffer area and approximately 27 acres of streets and alley rights of way. There are six types of housing proposed: Garden Apartments, Lane Lot Affordable Single Family Dwellings, Lane Lot Single Family Dwellings, Cottages, Medium Sized Single Family Home (Village Lots) and Large Sized Single Family Homes (Orchard Lots). Infrastructure requirements include roads, water and wastewater conveyance system, and storm water conveyance systems.	NOD

2005032007	Alton Interchange Caltrans #1 Fortuna--Humboldt The proposed project would convert a four-lane expressway to a four-lane freeway, construct a spread-diamond interchange to replace an at-grade intersection of State Routes 36 and 101, close five other at-grade intersections, construct local access road extensions on the west side of State Route 101, install median barriers, lighting and a pavement overlay.	NOD	
2005041068	General Conditional Waiver of Waste Discharge Requirements - Timber Harvest Activities - Central Coast Region Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo Santa Cruz, Santa Barbara-- The project involves the implementation of an Order waiving waste discharge requirements for specified discharges associated with timber harvest activities in accordance with an approved California Department of Forestry and Fire Protection (CDF) Timber Harvest Plan (THP) and/or Non-Industrial Timber Management Plan (NTMP) within the Central Coast Region. Any such waiver requirements must be conditional and may be terminated at any time by the Water Board.	NOD	
2005052099	San Lorenzo Creek (Zone 2 Line B) Restoration and Trail Improvement Project Alameda County Flood Control and Water Conservation District Hayward--Alameda The project includes installation of rock rip rap on the banks and stream bottom and non-native vegetation replacement. SAA # 1600-2005-0337-3	NOD	
2005062029	Williamson Coastal Development and Conditional Use Permits (CDP-04-95 / CUP-04-34) for a <3-acre Conversion Humboldt County Community Development Services --Humboldt A CDP / CUP for the commercial harvest of +/- 150 trees within a 1.2 acre portion of a 2.5 acre residential parcel. The harvest will remove +/- 54% of the trees. The trees to be removed range in size from 12-60" diameter and 130-160' in height and are mostly redwood with some red alder. The harvest is intended to open up yard area and remove hazard trees from around the existing residence. There is an intermittent watercourse that traverses the northern end of the parcel. The State's Forest Practice Rules require a 50' setback which corresponds to the requirements of the Trinidad Area Plan (TAP), §3.30B(5)(e)(2) with regards to timber harvests less than 3 acre in size with riparian corridor areas. The forester proposes to remove trees up to the 50' setback from the watercourse, but restrict heavy equipment to an area no closer than 100'. The residence is served by on-site sewage disposal and community water. No new development is proposed at this time.	NOD	
2005062113	Broussard Coastal Development Permit, CDP-03-133 / SP-03-156 Humboldt County Planning Department --Humboldt A Coastal Development Permit for the development of an access drive, development of a single family residence on a 40 acre parcel zoned Timber Commercial, and development of an on-site water supply system. The project includes site stabilization work necessary to address grading and tree removal activity that was completed without permit by a previous owner. A Special Permit is required for Design Review and tree removal. Grading is required as a part of this project and involves a total of 2,800 cubic yards of excavated material. On-site	NOD

2005098087	Install Telecommunications (WIFI) Tower in Brannan Island State Recreation Area Parks and Recreation, Department of --Sacramento Install a 36 foot steel truss tower on which a telecommunications antenna will be mounted. The purpose of the project is to improve internet access to the park unit including the internet camping reservation system. Existing internet access is inadequate. The project will involve installing a 4 foot by 4 foot concrete pad to which the tower will be anchored, the steel truss tower, and the antenna. The combined height of the accessory structure will be 40 feet. The tower will be sited in the administrative/maintenance area of the park.	NOE	
2005098089	Streambed Alteration Agreement Concerning San Felipe Creek Fish & Game #5 --San Diego The operator proposes to alter the stream to eradicate tamarisk (Tamarix sp.) within approximately 45.0 acres of the streambed and floodway of San Felipe Creek. There are two eradication areas, a 14-acre area immediately downstream of the creek bridge at Scissor Crossing, and a 31.0-acre area immediately upstream from the bridge. All work will be conducted between October 1 and March 15 to avoid any potential impacts to the least Bell's vireo and southwestern willow flycatcher, which have been documented in the vicinity of the project site. All tamarisk removal will be completed using hand tools. No heavy mechanized equipment will be used. Initial eradication will be followed up in subsequent years by routine maintenance (i.e., removal of any new tamarisk growth). SAA# 1600-2005-0457-R5	NOE	
2005098090	Agreement 2005-0110-R4; Gasburg Creek Fine Sediment Reduction and Habitat Restoration Project Fish & Game #4 --Stanislaus Implement erosion control measures at three sites to reduce fine sediment from being washed into the creek, remove accumulated fine sediments at an abandoned stream crossing, and reconstruct an interim instream sediment storage basin. The creek and floodplain will be restored and a riparian corridor planted.	NOE

2000101041	Home Depot Center Track and Field Lighting California State University Trustees Carson--Los Angeles The proposed project encompasses a 10-pole lighting system to illuminate the CSUDH track and field facility. The track and field facility is located north of the velodrome, approximately 400 feet to the east of University Heights and approximately 500 feet north of University Drive. The lighting system illuminates the inner grass playing field as well as the perimeter 400-meter Olympic track to 30 foot-candles, which is typical of these types of facilities. The 10-pole lighting system surrounds the track and field facility.	NOP	10/06/2005
2005091047	EastLake III Senior Housing Project Chula Vista, City of Chula Vista--San Diego The proposed project consists of residential units for active seniors (minimum of one resident per unit must be 55 years of age or older) on 18.4 acres of a 32-acre site located within the EastLake III General Development Plan (GDP) and Sectional Planning Area (SPA). A total of 494 residential units are proposed (27 units per acre). This gated community would include 13 buildings, each four stories tall over a subterranean parking garage. Housing units would be "for sale." The densities and unit numbers proposed could result in approximately 988 new residents. The remaining 13.6 acres of the site would remain open space. The project site was previously addressed in the EastLake III Woods and Vistas Replanning Program Subsequent EIR (SCH#2000071019; June 2001) for Commercial-Tourist uses. The proposed project would involve a land use change from Commercial-Tourist to Multi-Family Residential.	NOP	10/06/2005
2005091050	Lake Nuevo Village Specific Plan No. 00251 Amendment No. 1, EIR No. 00477, Tentative Tract Map No. 33687, Change of Zone No. 07181 Riverside County Planning Department Unincorporated--Riverside The amended land use plan would replace the 13.4 acres of commercial uses allowed by the adopted Specific Plan with additional residential development. The amount of land designated for residential uses would increase from 40.8 to 53.0 acres and the number of residential units allowed in these areas would increase from 190 to 315 units. The project includes 3.8 acres of open space and 4.1 acres of parks, similar to the adopted Specific Plan.	NOP	10/06/2005
2005092031	Heavenly Ski Resort Master Plan Amendment 2006 El Dorado County Planning Department South Lake Tahoe--El Dorado, Alpine The Heavenly Ski Resort is located partially inside and partially outside the Lake Tahoe Region on the south shore of Lake Tahoe. Heavenly currently operates under a 40-year Term Ski Area Special Use permit issued by the USDA Forest Service, Lake Tahoe Basin Management Unit, on August 5, 1989. Heavenly Mountain Resort is located across the California - Nevada Stateline and lies within El Dorado and Alpine Counties in California and within Douglas County in Nevada.	NOP	10/06/2005

	facility have not been determined at this date; therefore, this land use is conceptual and will require a subsequent land use and environmental review.		
2005072111	Butte Creek Scour Repair Site Maintenance Project for 2006 Water Resources, Department of Chico--Butte The objective of this project is to restore a 1.5H to 1V slope along the left over bank of Butte Creek and prevent further erosion. The slope of the bank will be reconstructed with approximately 1,850 cubic yards of imported fill. The finished slope will be armored with a turf reinforcement mat that will help prevent future erosion and sloughing. This turf reinforcement mat is porous and when covered with 2 inches of soil will allow the slope to be re-vegetated with native grass and willow plantings. At the toe of the slope, rip rap (D50 of 20") will be placed in order to prevent erosion at the toe of the levee and to anchor the turf reinforcement mat. Rock will generally be placed above normal summer creek water levels. The exception is in slope restoration areas where the hardpan has already been lost due to erosion. Riprap will extend vertically 4 feet above the existing hard pan layer at the bottom of the slope. Rock fill will also be required in slope restoration areas with out hardpan.	NOD	
2005099031	Denman Reach Stream Improvements and Denman Reach Channel Vegetation Management Project Petaluma, City of Petaluma--Sonoma This project addresses two separate but inter-related projects: 1) a Floodplain Enhancement and Stream Restoration Project that would be implemented by the City of Petaluma, (City's Denman Reach project) and 2) a channel clearing/vegetation management project that would be funded by the Sonoma County Water Agency (SCWA) and managed and implemented by the Southern Sonoma County Resource Conservation District (SSCRCD vegetation project). 	million square feet of visitor-serving and maritime commercial retail, office, restaurants, recreational, and hotel uses. Harbor Boulevard would be realigned as a continuous thoroughfare to provide an enhanced scenic route and improved access to the waterfront. The Red Car Line would be extended to Cabrillo Beach along the realigned Harbor Boulevard, including spurs into downtown San Pedro along 5th Street (to Pacific Avenue); along the East Channel to the Outer Harbor (cruise ship facility); and from the proposed Red Car Museum/Maintenance Building to Warehouse No. 1. Parking encompasses a series of surface parking lots and parking structures, spread throughout the project area.		
2005091051	Reservoir 1B Site Cucamonga Valley Water District Rancho Cucamonga--San Bernardino The purpose of this proposed project site is to develop a production, storage and distribution source of potable water supply for the district's existing service area. Proposed development of the site consists primarily of the construction of two 2.1 million gallon welded steel above grade storage tanks, 2 water production wells with a combined pumping capacity of 5,000 gallons per minute, a pump station with the capability of delivering 7,500 gallons per minute and on-site piping and chlorination.	Neg	10/07/2005
2005091052	Baker Project: Amendment of the General Plan, Specific Plan and Zoning Map Pismo Beach, City of Pismo Beach--San Luis Obispo The site consists of approximately 10.6 acres of undeveloped property 2 acres of which are designated Open Space, with the remainder designated for commercial use. The applicant is proposing the following changes: 1. Amendment to the Toucan Terrace Specific Plan; 2. Amendment to the General Plan Land Use Element Map from Commercial and Open Space to Residential and Commercial; 3. Amendment of the 1998 Zoning Map. The project also includes subdivision of the site (Tentative Tract Map No. 2486) into a total of 27 lots, three of which are commercial and 24 lots which are for residential development. Lot 26 contains a drainage basin and will not be substantially developed.	Neg	10/07/2005
2005091054	Orchard Hills Zone 3 to 5 Booster Pump Station and Portola Springs Zone A to C Booster Pump Station Irvine Ranch Water District --Orange The project consists of the design and construction of two pumping facilities to serve the Planning Area 1 (PA1) and Planning Area 6 (PA6) developments: a Zone 3 to 5 Domestic Water Booster Pump Station (BPS); and a Zone A to C Reclaimed Water BPS.	Neg	10/07/2005
2005092033	Berth 35 Wharf Extension Oakland, Port of Oakland--Alameda Construct a wharf extension at the northeast corner of Berth 35 to increase the area for truck maneuvering. Demolish the existing 6-foot by 87-foot catwalk at the northeast corner of Berth 35, install approximately 30 24-inch octagonal concrete piles, construct an approximately 5,420-square foot wharf extension off the northeast corner of Berth 35, and reconfigure the existing Berth 34 and Berths 35-37 yards to enhance truck maneuvering and accommodate Berth 35 container cargo. 2005062169	Ogden and Branigan Elementary School Woodland Joint Unified School District Woodland--Yolo The proposed project would provide for the acquisition of a site for the construction and operation of a comprehensive elementary school site (grades K through 6) on approximately 11 acres of the 12-acre site, in order to accommodate present and future enrollment needs of the District, particularly within the growing SASP and SLSP areas. The remaining acre would be set aside for future development. The proposed project would conform to an objective of the City of Woodland and the District objective to house additional students generated by new development in permanent facilities without adding more portable classrooms to existing sites.	NOD	
2005071077	California School for the Deaf - Riverside - Dormitory Replacement and Chiller Project Education, Department of Riverside--Riverside The California Department of Education proposes to replace existing dormitories at the California School for the Deaf - Riverside, and construct a new central chiller plant. The campus is a State facility, located on State-owned property. Currently, the school has residential facilities to accommodate up to 300 students. However, the existing dormitories were originally constructed in the early 1950's, and have not undergone any major remodeling or rehabilitation. The project is needed to construct new residential buildings that conform with current building fire and electrical codes and the Americans with Disabilities Act (ADA), and provide a reasonable indoor environment by upgrading the mechanical systems for heating and cooling. The proposed project would demolish and remove 13 dormitories totaling approximately 90,000 sf, and construct 14 new residential buildings totaling approximately 130,400 sf. The new buildings would consist of: 7 High School and Special Needs Dormitories, 2 Middle School Dormitories, 2 Elementary School Dormitories, 1 Special Needs Apartment, and 2 High School Apartment Buildings. The buildings would be single-story, 1-hour fire rated, steel frame construction, with brick and stucco siding, designed to architecturally blend with existing structures on the campus. The project would also provide 15,600 sf of replacement parking, and would construct associated walkways, lighting, landscaping, and irrigation. The project improvements to the dormitories will provide a modern home-like environment, designed to be responsive to the needs of the hearing impaired students. In addition, the project would construct a new chiller plant, which consists of a new, approximately 5,500 sf steel frame and masonry building to house the offices, restrooms, main chiller plant, cooling towers, and electrical room, and a thermal energy storage tank 50 feet high and 65 feet in diameter.	NOD	
2005072008	2004-188 Tentative Subdivision Tract Map (Black Creek Ranch) for Jim Ellis & David Nilsen Calaveras County Planning Department --Calaveras The applicants are requesting approval of a Tentative Subdivision Tract Map, for "Black Creek Ranch", to divide 80.01 +/- acres into 65 lots, ranging in size from 0.47 +/- to 2.74 +/- acres. The site is currently vacant land with some rough grading completed.	NOD

2005072127	Linkside Place Phase 2 (Tentative Subdivision Map No. 04-01) Oroville, City of Oroville--Butte Subdivide 15 acres into 59 lots for single family homes. The proposed project is a continuation of the 65-lot Phase 1 Subdivision which is currently under development.	NOD	
2005081028	Hanford LP Modification Title V Permit San Joaquin Valley Air Pollution Control District Hanford--Kings Hanford L.P. has submitted an application for an Authority to Construct (ATC) equipment necessary to allow an existing coke-fired, 30 megawatt, power plant located in Kings County to burn higher sulfur content petroleum coke. This project is being undertaken to ensure supply of fuel for electricity generation when a source of low sulfur content petroleum coke fuel is not available or is not cost-effective. The ATC application request an increase in the SO2 emissions limit that will only apply when it is necessary to use high sulfur content petroleum coke because low sulfur content petroleum coke supply is neither available nor cost-effective. The high sulfur content petroleum coke will be transported to the site via haul trucks from Wilmington, CA. Transportation of high sulfur content petroleum coke will not result in an increase of vehicle exhaust emissions. In the event that higher sulfur content petroleum coke is used, Hanford L.P. will be required to provide SO2 emission offsets.	NOD	
2005099040	General Plan Amendment #04-0004, Garthe Ranch Fish & Game #3 Vallejo--Solano The Operator proposes to construct a subdivision located on the east side of Columbus Parkway near the intersection with Springs Road in Vallejo, Solano County (APN 82-030-23, 82-030-06, 82-281-18). The project will result in the discharge of fill into 0.29 acre of an unnamed tributary (approximately 870 linear feet) as a result of constructing 105 single-family residences, a community park, streets, common driveways, storm water management facilities, and mitigation wetlands. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0454-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Dick Dschwedhelm / The DeSilva Group.	NOD	
2005099041	Compliance Schedule Amendment Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa -- This NOD is to advise that the California Regional Water Quality Control Board, North Coast Region (Regional Board) has determined that the above-referenced project has been fully approved by the Office of Administrative Law. The Regional Board adopted an amendment to the Water Quality Control Plan (Basin Plan) for the North Coast Region on 24 March 2004 (Resolution No. R1-011). The State Water Resources Control Board approved the Basin Plan amendment on 18 November 2004 (Resolution 2004-0078) and the Office of Administrative Law subsequently approved the amendment on 18 August 2005. 2005098099	<p>Install Exterior Under Eave Lighting - Bailey McGuire (05/06-SD-10) Parks and Recreation, Department of --San Diego</p> <p>This project consists of a proposal to increase lighting on the exterior of the reconstructed Wrightington Adobe a concession that operates within Old Town San Diego State Historic Park. Light would be added by increasing the wattage in the existing historic lanterns as well as adding historic period light fixtures at the rear end of building. No halogen bulbs or modern metal fixtures shall be installed or used.</p>	NOE	
2005098105	<p>Shallow Beach Roadside Fuel Reduction - Right of Entry Parks and Recreation, Department of --Marin</p> <p>Issue a Right of Entry permit to Shallow Beach Association to create a 30-foot wide zone of reduced fuels along both sides of the private access road to the Shallow Beach community at Tomales Bay State Park to improve safety and reduce risk to residents fleeing a wildfire and firefighters responding to a fire. Access will begin at the western end of the Shallow Beach access road gate at Pierce Point Road and will continue along the approximately 1.6-mile long access road and will occur on both private and State Park lands. Fuel reduction will be achieved by removing both live and dead tree and shrub fuels under strict guidelines reviewed and approved by the NEPA process and subsequently reviewed and approved by the State. All work will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, CEQA, and Section 5024 of the Public Resources Code, Right of Entry permit will be valid for 240 days from start of construction.</p>	NOE	
2005098106	<p>Development and Application of a California Basin Water and Energy Model Energy Commission Berkeley--Contra Costa</p> <p>The goal of this project is to develop an economic pricing model based on pumping data, test this model with dynamically and statistically downscaled climate and streamflow model data. A baseline climate and ensemble climate simulations will be generated for the economic pricing inputs, and for the analysis of the likelihood of climatic variations, including extremes (e.g. prolonged drought) that impact groundwater and pricing. This meets the PIER goal of understanding the impacts of climate variability on California water-energy infrastructure and associated economic impacts.</p>	NOE	
2005098134	<p>Cascade Creek Forest Habitat Enhancement and Fuels Reduction Project Tahoe Conservancy Unincorporated--El Dorado</p> <p>The project consists of limited removal of dead, dying and diseased trees and concentrations of surface fuels, and selective thinning of small diameter suppressed trees and brush on 36.34 acres to protect and enhance existing wildlife habitat, promote increased health and vigor of the stand, and reduce fire threat.</p>	NOE

	coverage in the hydrologically-related area.		
2005098136	Transfer of Coverage to Placer County APN 91-163-10 (Dumas) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 1,536 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2005098137	Transfer of Coverage to El Dorado County APN 34-772-03 (Jackson) Tahoe Conservancy Unincorporated--El Dorado Project consists of the sale and transfer of 1,278 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2005098138	Transfer of Coverage to Placer County APN 90-174-67 (King Horn Investment Group LLC) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 300 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2005098139	Remove and Treat Ailanthus at Folsom Powerhouse State Historic Park Parks and Recreation, Department of --Sacramento Remove and treat Tree of Heaven (Ailanthus), an invasive exotic plant species, at the Folsom Powerhouse State Historic Park (SHP). Ailanthus has infested many portions of the SHP. This project will remove and treat Ailanthus throughout the park unit. Ailanthus and other vegetation has routinely been removed from the canals and forebay of the Powerhouse as part of the maintenance program for the unit. The primary treatment method will be to cut the stems and treat the cut ends with an herbicide recommended by a licensed Pest Control Advisor. Herbicides that may be used include imazapyr, glyphosate, and triclopyr. The cut vegetation will be removed and disposed of at an appropriate disposal facility. In areas that are less accessible or where Ailanthus is growing through historic structures, a basal park herbicide treatment may be used and the plants would be left to die in place. In some of the canals and forebay of the Powerhouse, ladders and ropes may be used to access the area to minimize any impacts on historic fabric. An initial treatment will occur in the fall of 2005 and a follow-up treatment will occur in the fall of 2006. No elderberry shrubs, the host plant of the federally listed valley elderberry long-horned beetle, have been observed within 100 feet of the proposed work area.	NOE

1996042084	Matlock Santa Clara County MORGAN HILL--SANTA CLARA The project includes a bridge crossing Uvas Creek providing access to a 36-acre seven parcel subdivision on the south side of Heritage Way at Watsonville Road in the City of Morgan Hill in Santa Clara County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0195-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Don Matlock.	NOD	
2001071065	Stream Gaging Station Maintenance Project Water Resources, Department of --Madera, Merced, Stanislaus The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601(9) of the Fish and Game Code to the project applicant, DWR San Joaquin District for stream gauge maintenance activities in Stanislaus, Merced, and Madera Counties. These maintenance activities occur on a semi-annual basis to less than once every five years. Maintenance activities for the sixteen stream gauge sites in the San Joaquin District include: installation and replacement of bubbler gauge, cable car, cableway, data collection equipment, staff gauge, walkway, can section/house, intake line, pole, protective block, floats and stream gauge components. Other maintenance activities include: general cleaning and/or painting of housings and cans, flushing of cans, re-marking bridge, run levels, and vegetation management.	NOD	
2003022106	Sump 28 Outfall Stabilization Project (CIP# WL06) Sacramento, City of Sacramento--Sacramento The proposed project consists of construction activities to stabilize the shoreline and stop erosion from undermining the Sump 28 outfall structures. Specific activities include constructing 12-inch thick concrete cut-off walls along the sides and back of the existing concrete apron. The concrete walls will be 3-feet deep and doweled into the apron and all voids under the apron shall be filled with crushed rock. Cal-Trans #2 backing will then be placed along with filter fabric along the top and both sides of the cut-off walls. For the smaller diameter outfall, a concrete saddle will be constructed for the pipes to rest on, with straps tied around the pipes, securing them to the saddle. The saddle will be 6-feet deep and 1-foot thick. #2 backing will then be placed around the saddle, on the sides of the pipes, and between the pipes up to the springline.	NOD	
2003022107	Sump 70 Outfall Stabilization Project (CIP# WL06) Sacramento, City of Sacramento--Sacramento The proposed project consists of construction activities to stabilize the shoreline and stop erosion from undermining the Sump 70 outfall structures. Specific activities include constructing 12-inch thick concrete cut-off walls along the existing concrete apron with the walls doweled into the slab. The cut-off walls will be 6-inches higher than the apron. Steel reinforcing will then be placed on top of the existing apron and new slab will then be poured and doweled into the top of the existing apron. All voids under the apron shall be filled with crushed rock and the existing rip-rap on site shall be placed along the cut-off walls. There are a few trees along the outfall that are in direct conflict with the proposed work and will require removal.	NOD

2003022108	<p>Sump 111 Outfall Stabilization Project (CIP#WL06) Sacramento, City of Sacramento--Sacramento</p> <p>The proposed project consists of construction activities to stabilize the shoreline and stop erosion from undermining the Sump 111 concrete valve housing. Specific activities include: removing the top 3-feet of concrete; excavate a trench around the base and sides of the concrete housing; and placing filter fabric around all sides of the trench. The trench will then be filled with #2 backing up to 6-inches below the top of the concrete housing.</p>	NOD	
2004071034	<p>Twin Oaks Valley Water Treatment Plant San Diego County Water Authority --San Diego</p> <p>The project will develop a 100 million gallon per day (mgd) submerged membrane water treatment plant at the Twin Oaks Valley site. Project components include flow control facilities, pump stations, a submerged membrane facility, backwash tank, clarifiers, ozone facilities, chemical building, filtration facilities, equalization basins, two clearwells, an operations building, parking lot and associated appurtenances.</p>	NOD	
2004102053	<p>Tiburon General Plan 2020 - General Plan Update Tiburon, City of Tiburon--Marin</p> <p>The project is a comprehensive update of the 1989 General Plan.</p>	NOD	
2005032040	<p>Marin Horizon School Use Permit and Design Review Marin County Mill Valley--Marin</p> <p>Proposal to demolish an existing 5,900 square foot one-story building and construct a new 11,478 square foot classroom building for the Marin Horizon School on the 2.27-acre Homestead School site.</p>	NOD	
2005072015	<p>Classic Mill and Cabinet Industrial Buildings Cloverdale, City of Cloverdale--Sonoma</p> <p>The applicants are requesting approval of Design Review and Conditional Use Permit applications to construct two new industrial buildings for use in manufacturing kitchen and bath cabinets, as well as products for institutional and commercial needs. The products are fabricated from lumber and sheet materials in a variety of wood species, and are finished with conversion varnish. The project will consist of the construction of two corrugated metal industrial buildings on a site that has three existing corrugated metal industrial buildings. The existing buildings will remain, and the proposed buildings will be finished to match the existing. The smaller of the two proposed buildings will be approximately 3,456 square-feet in size, and will be attached to existing Building B, which is located at the west side of the property. The larger of the two proposed buildings will be approximately 33,180 square-feet in size, will be detached from the existing structures, and will be located at the east side of the property. The project also includes new paving, parking, landscaping, and perimeter fencing.</p>	NOD

2005072075	<p>Sonora Drainage IV along SR 108 in Mono County Caltrans #9 --Mono</p> <p>The project will improve a thirty drainage facilities along Route 108, which are incapable of handling moderate to heavy runoff, causing flooding, road closures, and potential damage to the highway. Because of flooding, maintenance crews spend much of their time and effort scraping mud off the road, replacing embankment, and controlling traffic. The proposed drainage facilities. Work will include replacing existing drainage culverts, extending the inlet and/or outlet of existing culverts, placing drainage inlets, placing flared end sections on the ends of culverts, improving roadway shoulders, and placing rock slope protection. Ten sites are expected to have flowing water at the time of construction (summer/late fall). Approximately 5.0 sq. meters (about 1/1000th of an acre) of potential Corps jurisdictional wetlands will be impacted. Avoidance and minimization measures include limiting the construction area and installing ESA fencing to protect sensitive sites. Overall, the project will reduce impacts to wetlands by increasing the distance from the road that water is released to wetlands (reducing nonpoint source pollution from the road to wetlands), reducing the need for culvert maintenance which may impact wetlands, and reducing culvert overtopping which causes siltation and erosion. Stormwater best management practices will be employed during construction to reduce erosion and siltation.</p>	NOD	
2005072091	<p>ED #03-19 GPA #03-3-1 ZA #03-3-1 Wildlands Inc.; Dolan Wetland and Grazing Preserve Colusa County Planning Department Colusa--Colusa</p> <p>A General Plan Amendment from Agriculture-General (A-G) to Resource Conservation (RC) (I) and a zoning amendment from Exclusive Agriculture (E-A) to Open Space (OS) on a 119 acre site.</p>	NOD	
2005099042	<p>West End Booster Pump Station San Bernardino Valley Municipal Water District San Bernardino--San Bernardino</p> <p>The specific project includes the following facilities and physical modifications to the environment: install two 48-inch pipelines from the Baseline Feeder (in the Baseline Road right-of-way) to the City's existing 7.5 mg storage reservoir at the City's Lytle Creek Plant. This will require the extension of the pipelines for a distance of about 1,000 feet north of the Baseline Feeder to the fenced and maintained storage reservoir site. The pipelines will follow a dirt access road or an alignment adjacent to this road, from the Baseline Feeder to the Lytle Creek Plant. Within the fenced boundaries of the Plant, the District may install up to seven pumps and support infrastructure.</p>	NOD

2005098152	Brooktrails Willits Creek Fisheries Restoration Fish & Game #3 Willits--Mendocino The project involves removal of grasses and cattails that have overgrown and choked the man-made salmonid spawning channel in Willits Creek just below the Lake Emily spillway and the placement of large wood to increase the amount and quality of pool habitat. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0569-3 pursuant to Section 1602.	NOE	
2005098153	Retaining Wall Repair at 260 Bridge Road, Hillsborough Fish & Game #3 Hillsborough--San Mateo Repair segments of approximately 200 feet of a soldier beam retaining wall. Issuance of a Streambed Alteration Agreement Number 1600-2004-0213-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2005098154	Vine Hill Ranch Bank Stabilization and Pierce's Disease Removal Fish & Game #3 Yountville--Napa The Operator proposes to revegetate and stabilize an 850 foot reach of Hopper Creek west of Highway 29, approximately 1 mile northwest of Yountville, Napa County. The downstream project limit is the existing vehicle access bridge across the creek. A 10-foot by 15-foot area will be laid back, a 15 linear foot by 25 linear foot willow revetment approximately 3-feet high will be constructed, 8 rock stream barbs of approximately 1 to 1.5 cubic yards each will be installed at 3 locations, rock toe protection will be placed along a 25 linear foot section, and a series of soil sausages will be installed to protect the roots of a large oak tree. Issuance of a Streambed Alteration Agreement Number 1600-2004-0765-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2005098155	Beringer Bridge Fish & Game #3 --Napa The Operator proposes to demolish an existing bridge and construct a new one over Canon Creek on Glass Mountain Road, approximately 0.2 miles from Silverado Trail, Napa County. The existing bridge including the stone masonry abutments will be removed and disposed of off-site. The new bridge will be approximately 46 feet in length and 14 feet wide and will be constructed with a steel gate deck system. Concrete abutments will be constructed at the ends of the bridge. Issuance of a Streambed Alteration Agreement Number 1600-2005-0146-3 is pursuant to Fish and Game Code Section 1602.	NOE

<u>Documents Received on Monday, September 12, 2005</u>			
2005098156	Dry Creek Wall Replacement Fish & Game #3 Napa--Napa The Operator proposes to stabilize approximately 16 linear feet of bank by replacing an existing wall on Dry Creek behind the residence at 1039 Darms Lane, Napa. The new sheetpile wall will be approximately 16 linear feet long by 10 feet to 12 feet high. Steel I-beams will be driven in the same location as the original wood pilings. Blackberries and vinca will be removed from the upper slope. Issuance of a Streambed Alteration Agreement Number 1600-2005-0167-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2005098157	Cleaning of Wildlife Center Sediment Ditch Fish & Game #3 Suisun City--Solano The Operator proposes to remove vegetation and tules from an unnamed tributary that runs parallel behind the houses on Maple Street from School Street to Kellogg Street in the City of Suisun City. The tributary captures primarily urban runoff that is then pumped from the tributary into Suisun Slough. The tules and sediment are decreasing the capacity of the tributary. A long reach excavator will work from the south side levee of the tributary and deposit material into trucks to haul offsite for proper disposal. Issuance of a Streambed Alteration Agreement Number 1600-2004-0784-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2005098158	Miller Creek Bank Stabilization Project Fish & Game #3 San Rafael--Marin The proposed temporary stream bank stabilization project involves the installation of a pipe and wire revetment (4 feet - 5 feet height x 50 foot length, geo textile bags filled with native alluvium) along an approx. 70 foot reach of Miller Creek at the toe of the creek to prevent scour in this area. The proposed project also involves planting willow poles through the face of the revetment and laying coconut fiber erosion control blankets within the 10 year flood level of the stream bank/bankful area. The project's main objective is to protect adjacent private property and to protect anadromous species (steelhead and coho) habitat from stream bank erosion and other potential water quality issues. Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2005-0514-3 pursuant to Fish and Game Code Section 1602.	NOE	
2005098159	Cingular Wireless (ST-554-01) Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a wireless facility consisting of 6 vertically mounted panel antennas on top of an existing building and ground equipment enclosed within a fenced lease area in the SC zone. Note: A Use Permit (03-UPZ-0760) was approved for another rooftop wireless facility on the same building but the facility has not yet been constructed.	NOE	
2005098160	Cope Residential Accessory Dwelling Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a 1,103 square foot residential accessory dwelling on a 0.91 +/- parcel in the AR-1 zone.	NOE

	natural conditions. The proposed project area within the streambed is 50' X 80' (0.1 acres). SAA#1600-2005-0592-R5		
2005098169	Lease of New Office Space Rehabilitation, Department of San Rafael--Marin Lease approximately 3900 square feet of existing office space. The space would house approximately 12 staff. Approximately 8 parking spaces would be used. Approximately 10 to 30 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to learn job skills, and prepare them to enter the workforce. Public transit is available within 1/4 mile of the site.	NOE	
2005098170	Lease of New Office Space Rehabilitation, Department of San Rafael--Marin Lease approximately 3900 square feet of existing office space. The space would house approximately 12 staff. Approximately 8 parking spaces would be used. Approximately 10 to 30 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to learn job skills, and prepare them to the workforce. Public transit is available within 1/4 mile of the site.	NOE	
2005098171	Lese of New Office Space Rehabilitation, Department of Fairfield--Solano Lease approximately 5,750 square feet of new office space. The space would house approximately 24 staff. Approximately 35 parking spaces would be used. Approximately 30 to 100 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to learn new skills, which then enable them to find employment. Public transit is available within 1/4 mile of the site.	NOE	
2005098172	Domestic Water Line to Maple School Shafter, City of Shafter--Kern A ten (10) inch diameter domestic water line will be constructed within the right-of-way of Fresno Avenue, from Highway 43 to Maple School, in order to provide City of Shafter municipal water to Maple School. The installation is approximately three (3) miles in length. The water line will connect to the existing main along Highway 43.	NOE	
2005098173	Tentative Tract Map 15548, Habitat Restoration to Address Envorcement Action Fish & Game Eastern Sierra-Inland Deserts Region Yucaipa--San Bernardino To develop Tentative Tract Map 15548, the Operator graded approximately 39.4 acres into a residential development and supporting infrastructure prior to notifying the Department of the project impacts. The project has permanently impacted 1,539 acres of the 1,539 acres of jurisdictional waters and habitat identified on the site.	NOE

2005094003	Joint Training Center - Lease at Yuba Goldfields Bureau of Land Management --Yuba The proposed action is the construction and operation of the Operating Engineers Training Center (Training Center). Operating Engineers are the people who operate the heavy equipment at construction sites and at quarries and other facilities that produce rock, sand or gravel. They repair equipment on the job site and in the shops of contractors and they do specialized work such as operating all types of cranes, pile drivers, dredging rigs, drillers, concrete pumpers, and water trucks for dust abatement.	EA	10/31/2005
2005041111	Canyon Country Education Center Facilities Master Plan Santa Clarita Community College District Santa Clarita--Los Angeles A new Educational Center is needed to accommodate the educational needs of the rapidly growing population in the Santa Clarita Valley. The campus will serve approximately 8,000 FTE (full-time equivalent) students.	EIR	10/31/2005
2005091087	Engineering Unit 3 University of California, Irvine Irvine--Orange The project proposes construction of approximately 150,000 gross square feet of new facilities to provide space for the Henry Samueli School of Engineering, campus-funded surge space, and a 350-seat general assignment lecture hall. The School of Engineering will occupy instructional laboratories, research laboratories and offices, and associated administrative and support spaces. Additional flexible "surge" space will be provided in the project to assist in meeting other high-priority campus facility needs. The project site is in the Engineering/Information and	MND	10/14/2005

	Computer Science quad, at the existing site of the IERF and CSE buildings, which will be replaced within this project.		
2005092077	Samos Stonelake Village Elk Grove, City of Elk Grove--Sacramento The project proposes to develop approximately 7.6 acres with single family detached homes. This project includes a Tentative Subdivision Map to create 112 residential lots; a Design Review for the proposed houses and a Conditional Use Permit to allow the residential use in a limited commercial zone.	MND	10/14/2005
2005091085	Change of Zone 04-04 and Tentative Subdivision Map (Courtyard Villas), El Centro El Centro, City of El Centro--Imperial The proposed Courtyard Villas project site consists of approximately 21+ acres of land located east of Austin Road and south of Orange Avenue (extended). The proposed project includes 54 single-family residential lots, a detention basin, and public park. The proposed project tiers from the environmental analysis provided by the Western Annexation EIR (SCH# 1999101109) and also requires a Change of Zone from A, agriculture (temporary holding zone) to R-1, single-family residential and Tentative Subdivision Map.	NOP	10/14/2005
2005091086	Ponte Vista at San Pedro Los Angeles, City of Los Angeles, City of--Los Angeles Multi-family residential housing community consisting of 2,300 dwelling units (25% restricted to seniors over 55 years in age); 10,000 sq. ft. of private retail uses; 6-acre publicly accessible park area with 4 baseball diamonds; and approx. 5 acres of common areas and parks (including community clubhouse and pool for residents). The project will require a General Plan Amendment and Zone Change (providing a Specific Plan for the project), and a Tentative Tract Map.	NOP	10/14/2005
2005092079	700 University Avenue Mixed Use Project Berkeley, City of Berkeley--Alameda The proposed project includes demolition of Celia's Restaurant and Brennan's Restaurant, construction of two buildings with retail and residential uses, and renovation of the historic Southern Pacific Railroad Station for use as the relocated Brennan's Restaurant. The proposed building on the north side of the project site would include ground-floor retail and 60 residential units; the proposed building on the south side of the project site would include 113 residential units. Additionally, a total of 199 vehicle-parking spaces and 24 bicycle-parking spaces would be provided on the project site.	NOP	10/14/2005
2005091083	CR & R Green & Wood Waste Recycling Facility - Negative Declaration PA 050029 Orange County San Juan Capistrano--Orange The applicant, CR & R, is requesting approval of a Site Development Permit to expand its existing leasehold property with an additional 5 acres located adjacent to and easterly of the existing site. The expansion area will be used for processing of construction and demolition materials, grinding of municipally collected green/wood wastes, and a pilot in-vessel food-waste composting operation. 2005099057	Petition for Long-Term Transfer of 67,200 acre-feet of Water per Year from the Modesto Irrigation District to the City of Modesto State Water Resources Control Board, Division of Water Rights Modesto--Stanislaus In 1995, the City of Modesto completed construction of the Modesto Regional Water Treatment Plant (MRWTP), a 30 million gallon per day (mgd) capacity water treatment plant to treat raw Tuolumne River water diverted at existing MID facilities. Currently, up to 34,500 acre-feet per year (afa) of Tuolumne River water is diverted by MID under one of its claimed pre-1914 water rights and delivered to the MRWTP for treatment and use within the City. The City is expanding the capacity of the MRWTP to 60 mgd and has reached agreement with MID to provide up to 67,200 afa of water for treatment and use within the City. On January 8, 2004, MID filed with the State Water Resources Control Board (State Water Board) a petition for long-term change to facilitate the long-term transfer of up to 67,200 afa of water to the City. MID filed the petition so that the entire capacity (including the 34,500 afa currently supplied under MID's claimed pre-1914 right) of the MRWTP may be served under its water right License 11058 (Application 14127) through December 31, 2054. Since the City limits are located within the authorized place of use under License 11058, the only change required for this transfer is to add municipal and industrial as purposes of use under License 11058. Water would be diverted at existing MID diversion facilities and delivered to the expanded MRWTP for use within the City.	NOD

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Thursday, September 15, 2005</u>			
2005098200	Issuance of Streambed Alteration Agreement #05-0024, Elder Creek, tributary to Sacramento River, Tehama County Fish & Game #1 --Tehama Installation of a Flexible Concrete Revetment (FCR) over an existing exposed gas transmission pipeline across Elder Creek.	NOE	
2005098201	Issuance of Streambed Alteration Agreement #05-0335, Hunter Creek, tributary to Klamath River Fish & Game #1 --Del Norte Repair 40 feet of failing stream bank along 150 feet of armored stream bank.	NOE	
2005098202	Issuance of Streambed Alteration Agreement #05-0328, Sacramento Gulch, tributary to Anderson Creek Fish & Game #1 Anderson--Shasta Install 150 linear feet of stream bank rock slope protection adjacent to an existing commercial structure.	NOE	
2005098209	Kelsey Creek Accessible Trail and Fishing Pier Parks and Recreation, Department of --Lake Work to increase accessibility of park facilities to meet Americans with Disabilities Act (ADA) standards. Work includes: - Construction of a boardwalk, maximum approximately 1,350 linear feet, over portions of the existing trail that parallels Old Kelsey Creek and extends to the mouth of the creek at Clear Lake and the loop trail near the campfire center. The existing trail is often inundated by high lake levels preventing access and causing visitors to impact other areas of vegetation trying to avoid wet areas. - Conduct hardening and leveling of the other portions of the above trails and on the existing trail from the footbridge over Old Kelsey Creek to the Swim Beach, using aggregate and native soil. - Remove approximately 600 square feet of deteriorated asphaltic concrete trail and replace with compacted aggregate surface of the same square footage. - Construct a new fishing pier on the south side of Old Kelsey Creek, west of the footbridge, approximately 100 square feet in size and cantilevered over the creek. - An existing volunteer (unauthorized) trail that occurs in wetland will be removed by decompacting and revegetation using native wetland plant species. Additionally, signs will be placed in appropriate locations near wetland directing visitors to stay on boardwalk and not stray into sensitive habitat.	NOE
